Parnall Law Firm was excited to celebrate our 10 year anniversary picnic on June 15, 2019, when we welcomed employees, colleagues, friends, clients, and community members for a picnic! We're proud to celebrate 10 years of helping our clients and friends get the justice they deserve!

At the picnic, we wanted to remind our community about how our law firm began and the mission and vision that got us here today. We celebrated the day by watching magic, juggling, and fire eating by Elijah Whippo of the Clan Tynker, not to mention fire eating by Bert Parnall. This spectacular show was followed by a performance by Le Chat Lunatique, a local jazz band. Afterwards, we cooled down with an epic water balloon fight at the park. Additional activities included face painting, balloon twisting, volleyball, corn hole, and eating shaved ice.

Bert Parnall, founder of Parnall Law Firm, stated "I am so grateful and thankful to have all of you come celebrate!" He continued, "When I decided to start my own firm, we began with only two employees. Now we have 10 lawyers and a full team of 45!" Parnall Law Firm's mission is "to achieve personalized justice and maximize recovery for each wrongfully injured client with intelligent, compassionate, and determined advocacy." The firm's vision is to continue to be the most respected and trusted personal injury law firm across New Mexico. As the firm continues to grow, Parnall Law Firm is able to help more and more people with their legal needs, and also help its community.
